

Hort Constructions is a leading supplier of quality Project delivery for the Mining and Infrastructure Industries. Hort Constructions is a Project Management and construction company who have extensive experience in Project management, delivery and administration in the mining & industrial construction sectors. Hort Constructions mostly deals with specialised structural, mechanical, and piping (SMP) construction projects within the mining sector.

Hort Constructions is an Australian owned company located in Orange NSW that primarily services the East Coast. Hort Constructions is driven by the desire to provide the successful delivery of projects in SMP & infrastructure construction on time and within budget.

This environmental policy is designed to demonstrate Hort Constructions commitment to protect and preserve the environment in which it operates and have direct or indirect control over. The top management is committed to take all reasonable steps for climate change to achieve a net zero goal.

Leadership is committed to the protection of the environment during operations and endeavor to prevent pollution from any waste and strictly follow any hazardous waste guidelines when disposing of construction waste. All projects will consider our environmental impacts and plan to minimise or eliminate the impact of any work carried out on site. Company and project related environmental aspects and impact of operations will be risk assessed and controls identified and implemented.

Leadership is dedicated to pursuing our corporate responsibility to minimise impact to land, water, air, flora, and fauna.

Hort Constructions' environmental management system meets the requirements of ISO 14001:2015. Leadership is committed to meeting and exceeding its legal and environmental compliance obligations.

Leadership is committed to managing its environmental risk and issues via a robust risk and opportunities process and incident management system.

Hort Constructions is committed to consulting and informing its workers, contractors and interested parties regarding their environmental obligations through awareness programs, inductions, and training. Where appropriate Hort will consult with its clients and the community regarding its environmental obligations.

Hort Constructions' environmental objectives are in alignment with the strategic direction of the business and are linked to its environmental aspects and impacts both in our office and project sites.

Hort environmental performance and that of its outsourced providers will be measured and monitored.

Leadership is committed to the continual improvement of its Environmental Management system to enhance environmental performance and create positive impact on climate change.

This policy will be communicated to our interested parties and be publicly available on its website.

Top management is committed to a high level of quality of product and services for its customers, provide safe working Environments to its employee, contractors, and other stake holders. The management is committed to prevent pollution and sustainable management of the environment. The company is aware of its responsibility for climate change and take all possible steps to achieve Net Zero.
