RISK & SAFETY

At Hort Constructions we understand our business, the environment in which we operate, our client's requirements and our commitments in the delivery of all projects undertaken. We understand that every contract regardless of size or complexity, every client, requires our project teams highest performance, mitigation of risk and safe operations is critical to our shared success.

Safe Operations forms the heart in how we conduct our business, support our contract partnerships and engage our project teams, this is the way we work. Our "The Way We Work " Critical Control Management Program combined with AS 4801 compliant safety management systems ensures our people achieve our shared goals .

Our safety mantra of **"Attitude drives behaviour, behaviour drives our culture, our culture drives the way we work"** is installed into all project teams and sub-contractors. Not just a safe place of work but living the values of Zero Harm 24/7 Work, Home or Play.

ZERO HARM

QUALITY

We recognise that achieving key project benchmarks is a core measure of success.

Our clients can be assured that we are committed to consistently meeting and exceeding quality expectations through robust systems, clear procedures, and a strong culture of ownership across our teams and subcontractors.

Our operations are governed by a certified Integrated Management System (IMS), compliant with ISO 9001 (Quality), ISO 14001 (Environmental), and ISO 45001 (Occupational Health & Safety).

This system is applied to all projects and independently certified, providing clients with confidence in our ability to deliver outcomes safely, reliably, and to the highest standard. Regular internal audits ensure ongoing effectiveness and continuous improvement.

Top management is committed to a high level of quality of product and services for its customers, provide safe working Environments to its employee, contractors, and other stake holders. The management is committed to prevent pollution and sustainable management of the environment. The company is aware of its responsibility for climate change and take all possible steps to achieve Net Zero.

SUSTAINABILITY

Hort Constructions identifies Sustainability as the process of maintaining change in a balanced environment, in which the exploitation of resources, the direction of investments, the orientation of technological development and institutional change are all in harmony and enhance both current and future potential to meet our business needs and aspirations.

We are committed to be a good corporate citizen in all locations in which we operate maintaining high ethical standards, compliance to laws, rules, regulations and respect for local and national cultures.

Our commitment to Environmental sustainability in all undertakings is evident by our continues achievement of commitment to AS/NSZ 14001 Environmental Management Certification.
