

Hort Constructions is a leading supplier of quality Project delivery for the Mining and Infrastructure Industries. Hort Constructions is a Project Management and construction company who have extensive experience in Project management, delivery and administration in the mining & industrial construction sectors. Hort Constructions mostly deals with specialised structural, mechanical and piping (SMP) construction projects within the mining sector.

Hort Constructions is an Australian owned company located in Orange NSW that primarily services the East Coast. Hort Constructions is driven by the desire to provide the successful delivery of projects in SMP & infrastructure construction on time and within budget.

Our WHS objectives include:

- The establishment of measurable objectives and targets to ensure the continual improvement of the WHS management system aimed at elimination of work-related injury and illness, by monitoring safety compliance to the WHS Management Plan and evaluating performance.
- Hort Constructions will comply with all legal WHS obligations and requirements, any contractual and industry requirements including relevant Standards, Regulations, Codes of Practice, and Industry best practice WHS Guidelines.
- The WHS Policy and relevant system documents will be documented implemented and communicated to all employees and will be available to interested parties for review and consultation.
- Facilitating consultation and Participation with all employees and subcontractors who will be expected to demonstrate a willingness to embrace the concept of safe work practices and a safe working environment and are required to work in a safe manner and discourage unsafe work practices.
- Central to these objectives is our commitment to provide adequate resources and equipment to provide induction and training to employees and contractors and for the provision of emergency response.
- Hort Construction is committed to ISO45001 standard, process of continual improvement and will regularly audit and review the WHS Policy and management system so it shall remain relevant and appropriate to both the company and its WHS policy objectives.
- Hort Construction is committed to contribute positively for Climate Change.

Hort Constructions management personnel will actively demonstrate through policy implementation that health and safety receive priority attention on a continual basis. Managers and supervisors will be responsible for the implementation and maintenance of Work Health & Safety management systems and standards within the workplaces under their control.

This policy will be communicated to our interested parties and be publicly available on its website.

Top management is committed to a high level of quality of product and services for its customers, provide safe working Environments to its employee, contractors, and other stake holders. The management is committed to prevent pollution and sustainable management of the environment. The company is aware of its responsibility for climate change and take all possible steps to achieve Net Zero.
